Prof. Ángel Cazares Picazo

Reinforcement Challenge: Simple Login and Managing School Needs

Grupo 401

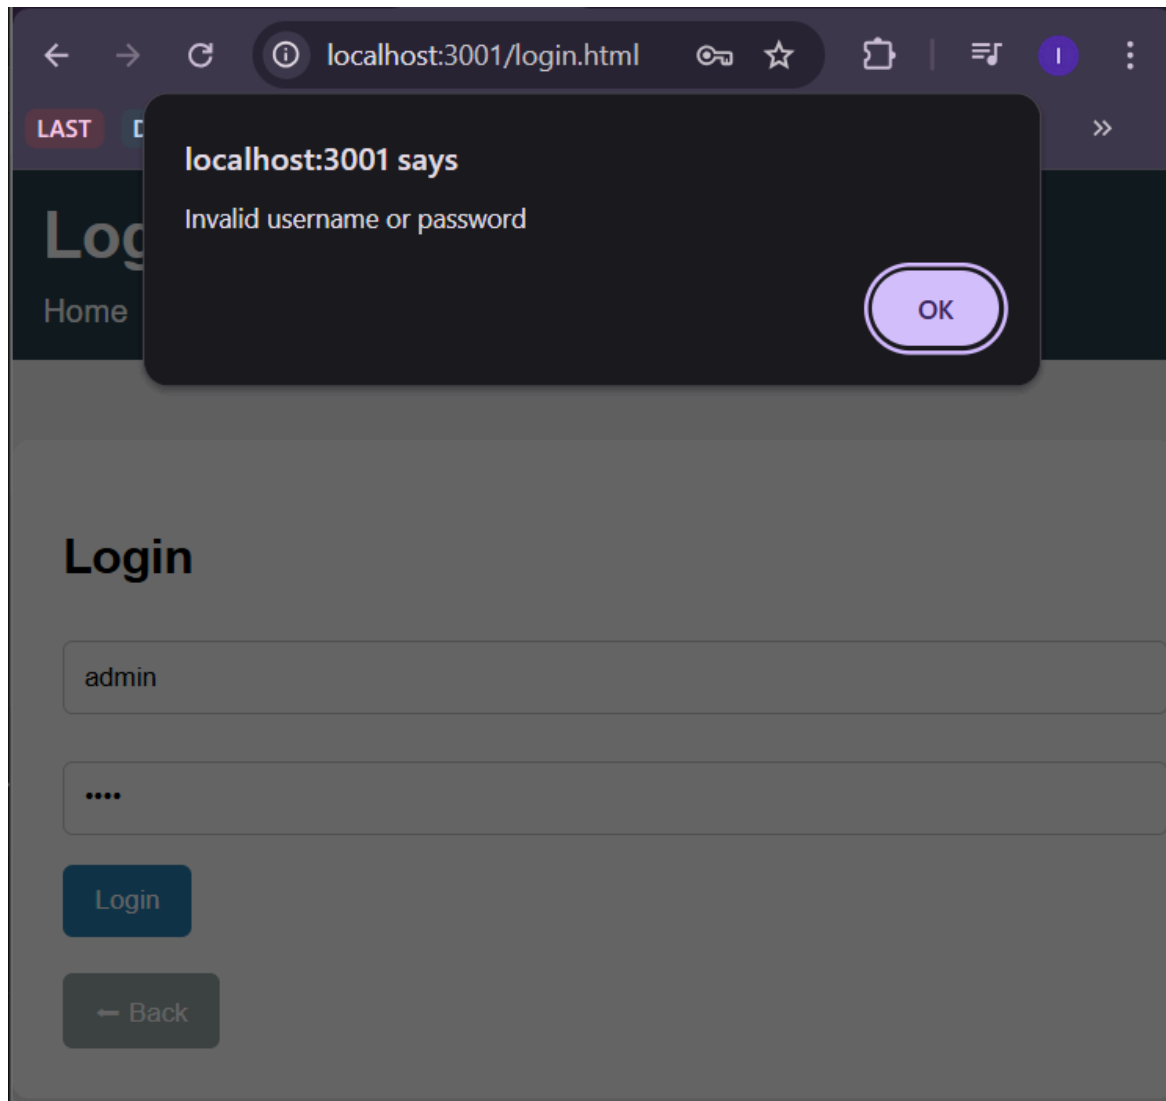

Itzia Elena Salas Iñiguez | A01646330

March 16, 2026

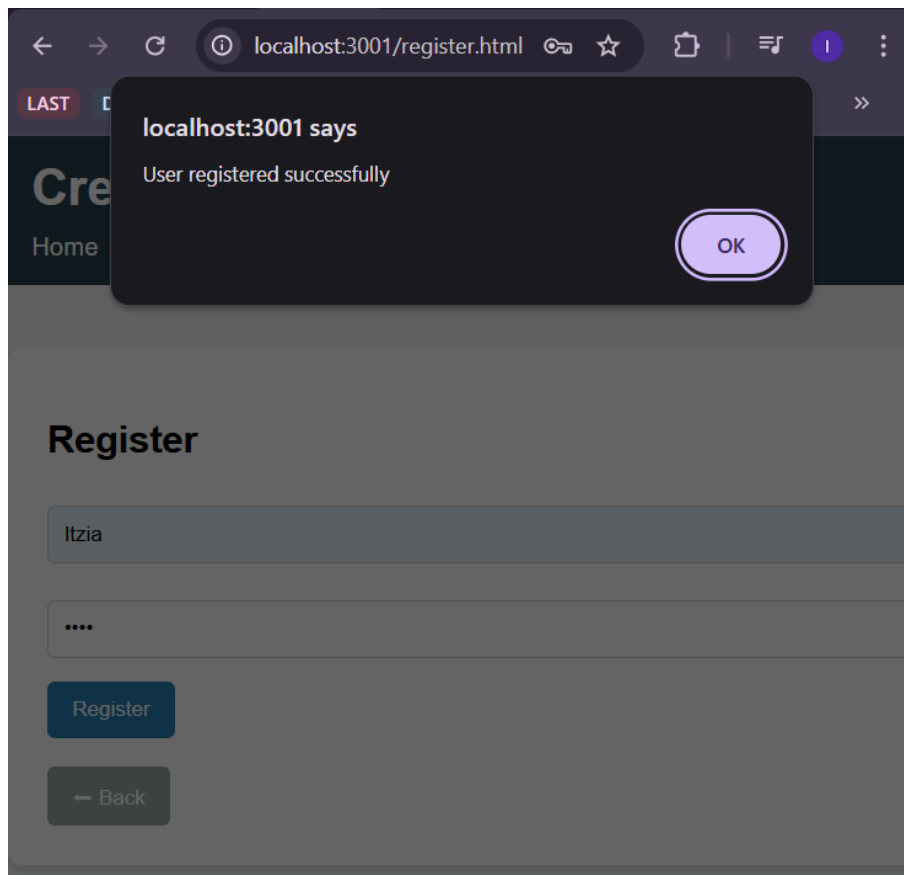

The system was tested successfully and the screenshots show that authentication, authorization with JWT, navigation, and catalog updates are working correctly.

The users and their needs are stored in memory, not in a database. That means if you shut down the server and restart it, they reset.
